Letter of Recommendation

I understand that Mr. Jyotirmay Senapati is applying to your Master's Program in Computer Science. As the Technical Lead in PegaSystem Worldwide Pvt. Ltd., I have had numerous opportunities to interact with him. I find Mr. Jyotirmay to be a talented software engineer. I would like to offer evaluation of his potential for your consideration.

Mr. Jyotirmay's selection in PEGA was based on a written aptitude and technical test, subsequently two technical interviews. Despite being a scholar from Electronics and Communication Engineering background, he had developed high proficiency in Software Engineering and analytical thinking on his own inventiveness.

Mr. Jyotirmay was of great help in software projects of PEGA, thanks to his efficiency and knowledge of Computer Science. He also made his mark in learning databases like MySQL, mongo dB and other programming languages like PHP, JavaScript, and Python. He learnt various tools and frameworks like Moodle, PEGA and Angular2 quickly and starts using them in the project work. His strong concepts of Mathematics help him to develop a logical thinking in technical projects.

Based on his expertise he is involved in making POC, designing database structure, implementing customer requirements and resolving issues of the software project quickly. From the feedback of clients, I can say that by asset of his technical familiarity and communication skills, he handles the tasks assigned to him very professionally.

In his work, Mr. Jyotirmay has shown himself to be a very bright and diligent young software engineer, one who is able to take hold of new concepts very speedily. His performance is brilliant in all the assignments designated to him. His most remarkable quality is the dedication and sincerity he shows in whatever he does.

Mr. Jyotirmay also acts as an effectual channel of communication between his team, other colleagues and senior management. He has ability to converse evidently, accurately and this has proved to be a great asset in the speedy implementation of his work.

Considering his potential, talent and eagerness to learn, I feel that Mr. Jyotirmay Senapati is a vigorous candidate to pursue higher studies in Computer Science. I strongly support his application for admission in to your University and also request you to consider him for financial assistance. I wish him success in his future endeavors. In case of any query or confirmation feel free to contact me any time.
